

COMVIEW

Telecom/IT Asset Management

Real savings that come from...

- Knowing your complete inventory at any moment in time
- Forecasting future expenses and planning for obsolescence and expired warranties
- Standardizing your refreshes and reusing existing assets more effectively
- Exact inventory at time of employee termination and elimination of disappearing assets
- Automatically managing spares inventory
- Improved employee productivity
- Unlimited user license

Comview does everything for you, including...

- Import your available current inventory data
- Update inventory automatically
- Perform nightly backups
- Provide immediate web role-based access
- Provide free software upgrades and enhancements
- A host of additional features at no extra charge

And with Comview's managed service, you're always assured of...

- Low administration time and cost
- The highest reliability
- The most advanced technology
- Easy to access and use reporting
- Integrated platform so you can add services seamlessly over time
- Professional and knowledgeable staff always ready to help
- Responsive service and support

Do you really know what assets you own at a given moment in time?

The range of IT assets and their numbers are increasing dramatically. Consider also that tablets, iPads and other mobile devices will continue to grow as the platform of choice for a range of professionals.

Managing technology assets is an essential function of every enterprise.

It all starts with knowing exactly what you have at any moment in time. A comprehensive, accurate technology inventory is at the very foundation of corporate policies such as cost containment, vendor and product standardization, license compliance, and risk management.

Gain greater visibility across all your IT, Telecom and Mobility assets.

You need a solution that is easy to use and manage, yet is powerful enough to leverage captured information and transform it into powerful management decisions. Comview's IT Asset Management is a comprehensive, integrated solution that saves you both money and time, provides valuable information, and keeps tabs on all your IT software and hardware inventory. With Comview you'll know your complete inventory of IT assets in real-time. You'll enhance your planning for refreshes, stay on top of warranty expirations, forecast future expenditures with greater accuracy and assure that your assets don't walk off.

A suite of modules including...

- Reporting and Business Intelligence
- Human Resources (HR) Interface
- General Ledger (GL) Interface

Comview is rated highest for overall customer satisfaction

and sustainable ROI for Telecom Expense Management based on our platform, completeness of offerings, ease of use, knowledgeable staff and superior service.

1

Comview Ranked #1

for customer satisfaction in the most recent AOTMP State of the Industry Reports. Visit comviewcorp.com to learn more.

ASSET MANAGEMENT works seamlessly with all of our other **Integrated Telecom Management** offerings, including: **Wireless Management, Audit & Optimization, Procurement, Call Accounting** and **Invoice Management**.

View Assets by Location, User, and Type

The screenshot shows the 'Search assets' window in the Asset Management software. On the left is a tree view of the organization structure, including 'DemoCustomer (Root)', 'International', 'North America', and 'Albany HQ (Loc 0)'. The search window has a 'Search' button and several filter fields: 'Asset Tag', 'Asset Type' (with a dropdown menu showing 'All Asset Types', 'Desktop PC', 'Desktop Computer', 'Monitor', 'Laptop', 'Printer', 'Software', 'Analog Circuit', 'OC12 Node', 'PRI', 'OC3 Node', 'BRI', 'DID'), 'Asset Status', 'Attribute Name', 'Attribute Value', and 'Asset Created Date'. There are also checkboxes for 'Include the created date of' and 'And Date'.

Individual Asset Report

The screenshot shows the 'Assets for Employee Dennis, Kristy' report. On the left is a tree view of the organization structure, including 'DemoCustomer (Root)', 'International', 'North America', 'Albany HQ (Loc 0)', 'Accounting (Code: Accounting)', and '000001Demo (Code: 000001Demo)'. The main window displays a table of asset items:

Asset Tag	Description	History
<input type="checkbox"/>	Desktop PC-Inspiron.Dell.XP.4.2 G10.120 G10	History
<input type="checkbox"/>	Desktop Computer-IBM.Thinkcentre M58.2GB.160GB	History
<input type="checkbox"/>	Monitor-Lenovo.ThinkVision.19".LCD	History

At the bottom of the table, it says 'Page 1 of 1 (3 items)' and there is an 'Export to Excel' button.

Comview provides the most comprehensive Integrated TEM Platform.

With Comview's Integrated Telecom Management platform, you get the market's most complete and easy to use solution. It lets you manage all telecom usage from one place. No more going from system to system. Invoice Management, Wireless Management, Audit & Optimization, Call Accounting, Asset Management and Procurement are all integrated into a single view.

- Instantly see any employee and all services they use
- Drill down to any device or view all usage across devices
- Know instantly what employees are spending across all services
- Easily locate anything in your organization from one screen
- Optimization reduces your spend across all services
