And with Comview's managed service, you're always assured of…

- Low administration time and cost
- The most advanced technology
- Easy to access and use reporting
- Integrated platform so you can add services seamlessly over time
- Professional and knowledgeable staff always ready to help
- Responsive service and support

Comview Ranked #1

1 for customer satisfaction in the most recent AOTMP State of the Industry Reports. Visit comviewcorp.com to learn more.

AOTMP®

---

7 to 12% of all Telecom charges are in error. 95% of those errors favor the vendor.

An Aberdeen report cited that 7 to 12% of all Telecom charges are in error. Another study states 95% of all billing errors favor the vendor. No surprise there. Yet when you also consider that taxes make up 18% of your overall bill and up to 30% of your wireless alone, compounding costs of errors can be significant, especially for large multinational firms. But no matter what your size, why give away your money when you don't have to.

Let Comview tip the odds in your favor.

Whether your biggest challenges include invoice errors, lack of invoice detail, late invoice payments, time consumed with tedious manual processes, or a lack of control when processes are not centralized nor connected to AP and GL systems, Comview has the solution.

Comview's Fixed and Wireless Telecom Invoice Management is a comprehensive, integrated solution that saves you time and money, is easy to use, and yet is powerful enough to maintain consistency and control across your entire enterprise. Our experienced professionals and their commitment to the highest quality standards, along with comprehensive monthly audits, means invoicing errors are a nonevent.

With Comview, you'll also increase visibility across the enterprise and finally have a solution for accurate chargeback.

A suite of modules including…

- Reporting and Business Intelligence
- Accounts Payable (AP) Interface
- General Ledger (GL) Interface

Comview is rated highest for overall customer satisfaction and sustainable ROI for Telecom Expense Management based on our platform, completeness of offerings, ease of use, knowledgeable staff and superior service.

INVOICE MANAGEMENT works seamlessly with all of our other **Integrated Telecom Management** offerings, including: **Wireless Management, Audit & Optimization, Asset Management, Procurement** and **Call Accounting.**
